## OPTIONAL ACCESSORIES FOR THE LV-7565

### Network Imager LV-NI01

The LV-NI01 connects the LV-7565 to your computer network, enabling remote management of the projector through a simple, graphic user interface. This makes a number of tasks easier, such as programming for operation on a daily or weekly schedule, input mode switching and picture adjustment. Send status alerts via email. Furthermore, it offers remote transfer of images, and centralized control of multiple projectors.
